MISSION STATEMENT

“

To keep building a long-term, diversified and safety-conscious manufacturing business — one that delivers quality products with pride, develops and challenges its people, and contributes to the community and the environment through new technology.

Rahul Rajput
Proprietor

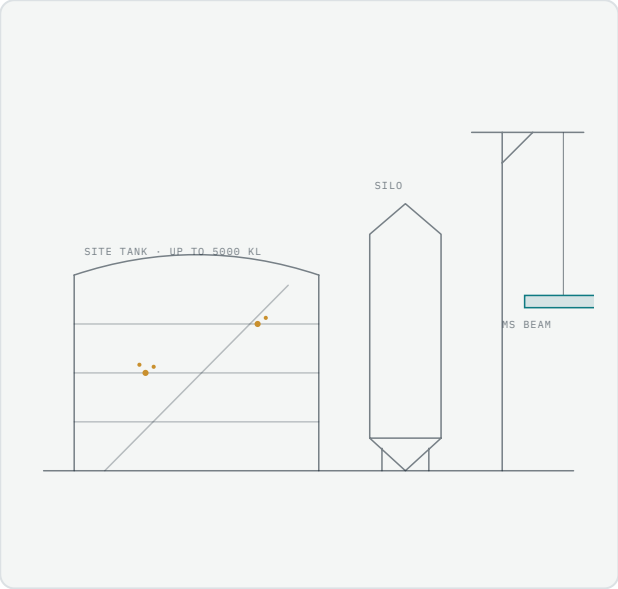
INTRODUCTION

We build the systems that carry what corrodes everything else.

M/s. Tech Fibro Industrial Services is a manufacturer and service provider to the chemical, petrochemical, pharmaceutical, cement and construction industries in India.

We bring new technology, sound engineering and skilled crews to every job. We benchmark our practices, learn from every project and keep looking for better materials, construction methods, management techniques and information systems — with precise planning, tracking and control from start to handover.

Safety, and the right resources for professional completion of every task, sit at the centre of how we manage the company. We recruit qualified people, train them, and continually review our field operations and job sites.



168
people on our rolls

22
engineers & supervisors

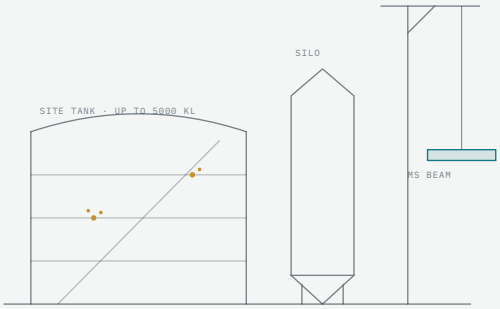
15
major plant clients

INDUSTRIES SERVED — Chemical · Petrochemical · Pharmaceutical · Cement · Construction

AREAS OF OPERATION

Metallic manufacturing & fabrication

Built in MS, CS, SS and exotic MOC at our workshop, erected at your site.



01
Tanks, vessels & condensers
Process tanks, vessels, condensers and expansion pots.

02
Site-fabricated storage tanks
Field-erected storage tanks from 100 KL to 5,000 KL.

03
Silos & bunkers
Silos and bunkers for bulk material storage.

04
Conveyors
Belt conveyors and belt-conveyor rollers.

05
Ducts & hoppers
Ducts, hoppers, dampers and manholes.

06
Fittings
All types of fittings in MS, CS, SS and exotic MOC.

07
Shafts & fasteners
Shafts, bushings, fasteners, couplings and consumables.

08
Machining & custom items
All types of machining work and tailor-made items.

09
Gaskets & spacers
Gaskets, PTFE spacers and pipeline items in all MOC.

AREAS OF OPERATION

Non-metallic equipment

Manufacturing in HDPE, PP, FRP, PVC and PTFE.

01
Pipe & fittings
Non-metallic pipe and fittings to ASME / ANSI / DIN standards.

02
Storage tanks
Non-metallic tanks for acids, alkalis and process liquids.

03
Scrubber columns
Fume scrubbers fabricated, supplied and erected.

04
PP-FRP coupling guards
Corrosion-proof guards for pumps and rotating equipment.

05
FRP sight glasses
Double-window type FRP sight glasses.

06
Moulded items
All types of PTFE, PFA and PP moulded components.

07
Non-metallic valves
Supply of all types of non-metallic valves.

Plant services to requirement

01
Structures & erection
MS / SS structures fabricated at our workshop and erected at site.

02
Maintenance rate contracts
Yearly contracts for rotary and static equipment — valves, gearboxes, couplings.

03
Capital repairs
Capital repairs of refineries, chemical plants and more.

04
Office containers
20 ft and 40 ft office containers to requirement.

05
Storage containers
20 ft and 40 ft material storage containers to requirement.

SAFETY

We will never compromise the safety of our staff, equipment or customers.

Tech Fibro management is dedicated to protecting and preserving the working environment responsibly. We are proud of how we work and of our safety record.

Every successful job comes from exceptional performance and well-planned services. Most incidents come from human error — rushing, stress and poor working conditions — so we plan to remove those conditions, and see fewer incidents as a result.

We keep developing and improving our safety programmes to protect our team on every job site. Our staff and professionals are our biggest asset, and we keep working to make our facilities and sites safer.

01
Plan every job
No rushing, no improvisation on site.

02
Train & evaluate
Continuous training and site reviews.

03
Equip every worker
Full PPE, every shift.

PERSONAL PROTECTIVE EQUIPMENT

- Helmets
- Safety belts
- Hand gloves
- Goggles & glasses
- Safety boots & shoes
- First-aid kits
